

SOGO Corporation's Prefabricated Cold Storage

SOGO can supply kinds of cold storage such as assemble cold storage, outside cold storage, quick-frozen cold storage, large cold storage in a distribution depot and multistory cold storage. Their prefabrication method shorten the work period and can suit your demand. The polyester resin cored panels have high durability and heat insulation, and achieved high cleanness and chemical resistance due to surface hardening treatment.

Panelized freezing store for business use

▲ Large prefabric freezer with SOGO's airconditioner units delivered and constructed at one time

▲ Low temperature storage for grains
